

Here is where you take the data you collected and figure out what it all means. Put a check next to each number you checked and for the total score count how many checks you wrote down for that column. The column with the highest score determines which phone is right for you.

Column 1	Column 2
3	1
5	2
6	3a
8	4
9	5a
12	7
13	11
Total Score:	Total Score:

If you had a higher score for column 1:

Congratulations! You are an iPhone. You are here for the usability and the apps. To learn more about your dream phone go to apple.com/iphone.

If you had a higher score for column 2:

Awesome! You are an Android user. You go for the social integration and the free apps. You are dedicated to sharing and openness, and can make your way through the learning curve. To learn more about your dream phone go to droiddoes.com
