

## Step 1

Put a check mark next to each feature that you want on your phone. Choose carefully, and only choose the things that you think you would use often. No matter what, don't pick every single one and once again only pick the things that you would need often. Once you have filled this sheet out download the next PDF from [goodmorninggeek.com](http://goodmorninggeek.com).

1. Super quick access to all of your information\_\_\_\_
